

TCM Forklift Part

TCM Forklift Part - Forklift trucks are an important player in the material handling field of each and every global business. Transporting industrial goods takes place each and every day on our industrious planet. Initially innovated as industrial vehicles in the 1930s in the U.S., forklifts gained popularity following WWII in the 1940s. Becoming an efficient and reliable means to material handling solutions, the practicality and need of these equipment spread worldwide.

Originally established as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. previous to becoming known as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's first lift truck. Through the years, TCM lift trucks have become an international leader in lift truck manufacturing and have built a solid reputation in the business. TCM began constructing lift truck manufacturing locations outside of Japan in the 1980s and is now engaged in lift truck manufacturer at three foreign factories in China, the United States and Europe.

TCM proudly makes various models of industrial forklifts with over 50 years of accumulated expertise and technology, making their products recognized and used all around the world. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and aims to become a world-class leading business.
